

## VOLUNTEERS NEEDED

# HELP VALLEY RESIDENTS ACCESS SAFE DRINKING WATER

The Kings Water Alliance is a non-profit organization providing free well testing and safe drinking water to rural residents impacted by unsafe levels of nitrates in their groundwater. Drinking nitrate-contaminated groundwater poses health risks. Many small communities in the Central Valley rely on groundwater for drinking water. Because of unsafe nitrate levels in some areas, people cannot safely use the groundwater for drinking and cooking.

**2 IN 5** DOMESTIC WELLS ARE IMPACTED BY UNSAFE LEVELS OF NITRATE IN THE KINGS WATER ALLIANCE\*.

\*Based on available data, we estimate over 2 in 5 domestic wells are impacted by >10 mg/L-N.

## Interested?

Fill out our volunteer interest form at [www.kingswateralliance.org/volunteer](http://www.kingswateralliance.org/volunteer).

### Volunteer with us!

Partner with us as a volunteer team member from October - December 2021 to reach residents with safe drinking water solutions. We need help conducting outreach at food distribution events held in communities near Fresno, Kerman, Sanger, Selma, Dinuba, Riverdale. Volunteers will have the option to continue on the volunteer team into 2022.

**SCHEDULING IS FLEXIBLE!**

### How you can help bring access to safe water:

Volunteering includes attending food drives/distribution events throughout communities in Fresno County and portions of Kings and Tulare counties to:

1. Pass out program flyers
2. Help residents fill out the free well test/bottled water request form

The Kings Water Alliance will train volunteers on outreach best practices and all resources and materials will be provided for events.
