

IS YOUR WELL WATER SAFE TO DRINK?

Many residents in the Central Valley rely on wells as their primary source of water. Some residents cannot safely use this water due to unsafe contamination levels. If your drinking water has unsafe nitrate levels, Kings Water Alliance will provide you with safe drinking water solutions.

TO SEE IF YOU ARE ELIGIBLE FOR **FREE** DRINKING WATER, WE HAVE 3 EASY STEPS!

1. Take our 2-minute survey

Survey available three ways:

1. Scan the QR Code
2. Paper form: call (559) 549-6747
3. Online: www.kingswateralliance.org/welltest

2. We perform well test

Our experienced staff perform a simple and quick well test to see if there is an unsafe level of nitrates in your drinking water.

3. Receive bottled water

We deliver **FREE** bottled water to you. Bottled water is delivered every two weeks in 5-gallon containers.

NEED ACCESS TO SAFE DRINKING WATER TODAY?

Here is a list of **FREE** and **SAFE** drinking water fill stations. Three fill station locations are accessible throughout the Kings Water Alliance. Bring an empty container to a fill station and take safe, accessible, free drinking water back to your home.
